- Services and Resource Analysis provided some good discussion on ways to promote Wraparound.

PACT 4 Committees – Services and Resources Analysis

In order to maximize our efforts on behalf of at-risk youth and families, the PACT 4 Executive Board has asked on-going committees to complete an analysis of current resources and availability of services/supports at least two times a year. This information will be used to support grant writing efforts, program planning, and help to set funding priorities for the next cycle of LCTS grants in 2011. We ask your committee to complete this first analysis by July 1, 2010, and include with your minutes given to Shawna. When all the committees have completed their analysis, they will be summarized and given to the Executive Board, shared with committees, and with collaborative members.

We understand that it may take more than one meeting to complete the analysis. Please identify your committee, the date submitted, and the person completing the document in case there are any questions. Address the topic in each column for the youth and families that are the focus of your committee. The information provided should reflect the consensus of your committee.
