1. Introductions

2. Success stories

A wraparound team was able to convene to support a parent during a rough time. The team was able to help the parent see her strengths and give her some hoe. Wraparound teams are being used more in the Child Protection realm. The committee sees this as a positive step.

3. Evaluation Tools Update

Surveys are now being implemented by the Neutral Facilitator and being distributed to counties/other facilitators.

Looked over the newly-formed Wraparound Progress Tool and a few suggestions were made. This maybe used with a random sample of existing wraparound families to start, and eventually use them for all new teams. Char will also present these when she meets with county staff. Questions this tool generated were:

- ✓ Will facilitator administer this to parent or PACT 4 staff?
- ✓ Would we stipend?

4. Training Updates

Refresher training scheduled for October 12th. This will be a panel-format training.

5. Next Meeting
