Present: Debbie Gerrety, PRIDE-4 Family Liaison

1. Introductions

2. Success stories

Dawna reported that DHS is providing information about Mental Health Behavioral Aides (paraprofessional working under the direction of mental health professionals). There are none in our area yet, but we're encouraged that parents are being sought for input.

A teenage boy has participated in, and benefited from, the wraparound process.

A parent wrote a success story, which was shared with the committee.

3. Evaluation Tools Update

Survey – changes made, also Spanish version

- Differentiate between “children’s mental health” and “child protection” case manager
- Add line: “explain briefly why this team was formed.” – committee feels surveys should be distributed after every meeting, as much as possible.

Progress Tool

Still considering this

4. Faith-Based Resource List

Has been updated.

5. Training Updates

Refresher Training – 3 options (manual, parent participation, panel attendee)

These are the three options for a refresher training. People can read the manual and give input, be panel participants, or attend the panel.

6. Other

Kudos to our committee: it was pointed out that our committee works well together, and that we don't “gripe for the sake of griping”. Rather, we find solutions for barriers we identify.

7. Next Meeting

July 11th, at 10:30 am in Willmar.
