Chris Sullivan

- New members were present and wraparound concepts were explained.
- Neutral Facilitators: main outcome on the positive side; still working on getting more
- Evaluation of wraparound – with the wraparound survey
  - 1) Outcome – some teams have no informal supports
  - 2) Are understanding of the concepts of wraparound
- Progress tool: jut new format and Char will pilot this to find out how the families are progressing
- Tweak committee form to have standard updates on these outcomes for our group; update on tools monthly
- Went around the table and voiced thoughts and reasons for wraparound interest; very positive; working with families and getting agencies to talk about the process; helping families on the positive aspects
- Char handed out a new Wraparound Handbook for participants to use as refresher course credits
- Measurable outcomes: informing the community by holding meetings and taking the initiative to each individual to get this going.
- Panel that will be at the refresher training include people from child protection, neutral facilitators, family liaisons, in-home providers, and children’s mental health social workers
- Discussed possibility of getting a DVD made of panel from wraparound
- Ask families to have visitors or new people to join in their team meetings for information.
- List of okayed families and list of people who want to be contacted to get information
